Environmental Scientist | Soil, Water & Environmental Consulting Graduate

Master of Environment student at Macquarie University with a strong academic and practical background in environmental assessment, water quality, soil science, GIS, climate change adaptation, environmental remediation, and sustainability consulting. Experienced in preparing technical reports, conducting field and laboratory assessments, analysing environmental data, and developing practical recommendations for environmental management. Strong leadership background through university associations, community service organisations and Australian volunteering with Clean4Shore.

Education

- **Master of Environment**

Macquarie University, Australia

Expected completion: July 2027

Relevant coursework:

Environmental and Sustainability Consulting, Environmental Planning, Environmental Remediation, Environmental Pollution, Field Methods in Environmental Science, Science in Environmental Management, Environmental Law and Sustainable Development, Sustainable Cities, Climate Change and Adaptation, Climate Change and Society, Australian Environmental Futures, The Living Environment, Environmental Applications of GIS and Remote Sensing, Introduction to GIS and Remote Sensing.

- **Bachelor of Science (Honours) in Soil, Water and Environment**

Khulna University, Bangladesh

CGPA: 3.52/4.00

Relevant coursework:

Soil Survey and Land Evaluation, Soil Classification, Soil Chemistry, Soil Physics, Hydrology, Water Resources and Water Quality, Watershed and Wetland Management, Soil Erosion and Conservation, Environmental Chemistry, Water and Soil Pollution, Natural Resource Management, Waste Management, Climate Change and Food Security, GIS, Biostatistics, Research Methodology.

Core Technical Skills

- **Environmental assessment:** Environmental Impact Assessment, Environmental monitoring, Environmental planning, Sustainability assessment, Environmental compliance, Environmental risk assessment.

- **Water and catchment management:** Water quality assessment, WQI calculation, Stormwater management, WSUD, hydrology, Watershed management, River and floodplain management.
- **Soil and contaminated land:** Soil sampling, Soil classification, Soil survey, Land evaluation, Soil physical and chemical analysis, Contaminated land assessment, Remediation planning.
- **GIS and data analysis:** ArcGIS Pro, Georeferencing, Geoprocessing, Spatial analysis, Microsoft Excel, data visualisation.
- **Field and laboratory skills:** Soil and water sampling, pH and EC measurement, Turbidity, Dissolved oxygen, TDS, BOD, Nutrients, Faecal coliform interpretation, Soil texture, Bulk density, Organic matter, Hydrocarbon and Trace metal assessment.
- **Digital Communication & Media:** Documentary storytelling, Video scripting, Video editing, Camera operation, Interview production, Live video production, Content planning, Digital media communication.

Selected Environmental Consulting & Research Projects

- **Undergraduate Research Thesis**

Effects of Two-year Organic Manure and Vegetative Cover Practice on Soil Fertility and Aggregate Stability

Supervisor: Professor Md. Sanaul Islam

- **State of Water Quality in the Creeks of Macquarie University**

Individual Technical Report | Environmental Pollution

- **Soil Contamination and Remediation Assessment, Homebush West**

Group Technical Report | Environmental Remediation

- **Environmental Impact Assessment of Eraring Power Station, NSW**

Group Report | Environmental Pollution

- **Water Sensitive Urban Design Policy Proposal, Parramatta**

Policy Report | Environmental Planning

- **Climate Change Adaptation for Samoa's Coastal Transport Infrastructure**

Individual Research Report | Climate Change and Adaptation

- **Urban Stream Rehabilitation Assessment, Manly Lagoon**

Scientific Report | The Living Environment

- **Macroinvertebrate Ecology Field Study**

Group Field Project | Field Methods in Environmental Science

- **Plastic and Microplastic Waste Management in NSW**

Literature Review | Australian Environmental Futures

- **Hydrologic data collection and field water balance interpretation**

A field study. Tasks - estimating different hydrologic components and their functions, data collection and interpretation; construction and interpretation of hydrograph; identifying the level of subsurface and groundwater.

- **A field Study on the identification, quantification and characterization of soil minerals in Sylhet Region (SriMongol, Jaflong, Lawachara Rain Forest, Bichanakandi).**

A lab report on “Water Resources and Water Quality Sessional/Field Work”. Tasks- a. Analysis of water quality: laboratory analysis of different parameters of water sample and grading, Water quality monitoring.

- **A field study on “Soil Ecology and Ecosystems Sessional/ Field Work in Khulna University”.**

Tasks- a. Diversity measurement of an ecosystem; b. Community analysis of a particular ecosystem. c. Estimation of biomass of carbon, nitrogen and phosphorus.

- **A field study on “Soil Erosion and Conservation Sessional/Field Work”.**

Tasks- a. Measurement of slope; b. Contour line formation by A-frame; c. Construction of inward and outward bench terrace; d. Jhum cultivations- its advantages and limitations and drawing suggestions for improvement.

- **A report on “Geographic Information System Sessional”.**

Tasks- Developing spatial database, GIS map and database, Spatial analysis.

- **A report on “Soil Classification and Soils of Bangladesh Sessional/Fieldwork”.**

Tasks- Mini pit description, identification of diagnostic horizons, physical and chemical analysis and classify soils based on US Taxonomy, FAO-UNESCO and WRB classification systems.

Professional Experience

- **Team Member**

Coles Supermarkets, Rutherford, NSW
2026–Present

- **Stream Camera Operator**

Double Take Sports, NSW
2026–Present

- **Head of Business Development**

Lexicon, British Council IELTS Examination Venue, Bangladesh
2024–2025

Volunteer Experience

- **Volunteer**

Clean4Shore, Local Land Services, Australia

- **Community Service Chair > Secretary**

Rotaract Club of Khulna University
2022–2024

- Fund collection for social activities such as winter cloths distribution, Scholarships and Educational material distribution, Tree plantation, Autism Child, Old age home, Sustainable change of a family, Campus cleaning project etc.
- Convener, Executive Committee, Fresher's Reception, Khulna University.
- Volunteer in Three Minute Thesis Competition 2023 at Khulna University.
- Event Planning and Management, Leveraging the sustainable development goals to enhance Environmental sustainability in Bangladesh.

Leadership & Extracurricular Activities

- **President**

Pedon, Soil, Water and Environment Student Association, Khulna University
2023–2024

- **Head of Promotion**

TEDx Khulna University
2024

- **Founder**

Thoughts Behind the KU
2020–2024

- **Captain**

Soil, Water and Environment Discipline Cricket Team

- Participated National Soil Olympiad 2021.
- Participated International Webinar on Water Conservation In-conjunction with Water Conservation Education and Awareness Program at Pahang, Malaysia.
- Sustainable Architecture and Building Design, Udemy.

Awards

- Outstanding Rotaractor of the Year, 2022–2023
- Best Community Program Chair Award, 2022–2023
- Rising Star of the Year Award, 2021–2022
- Runner-up, Inter-University Cricket Tournament, 2023

Languages

- Bengali: Native
English: Proficient
